## PROFESSIONAL SUMMARY

Innovative Full-Stack Web Developer and Software Engineer with strong expertise in modern web architectures, scalable systems, and Artificial Intelligence & Machine Learning integrations. Proven experience in architecting full-stack applications with React.js, Node.js, Express, and MongoDB, paired with practical knowledge of Python, ML algorithms, generative AI APIs, and automated data-driven pipelines. Dedicated to combining clean software craftsmanship with engaging visual media and video production.

## TECHNICAL & CREATIVE SKILLS

### Full-Stack Development

React.js, JavaScript (ES6+), Node.js, Express.js, Tailwind CSS, HTML5/CSS3, REST APIs, MongoDB, Git/GitHub, Vercel, Vite.

### Artificial Intelligence & ML

Python, Machine Learning Fundamentals, Scikit-Learn, Generative AI & LLM APIs, Prompt Engineering, Predictive Modeling, AI Automation.

### Video Editing & Media

Video Cutting & Trimming, Motion Graphics, Audio Synchronization, Color Grading, Storyboarding, Social Media Clips & Promo Videos.

## FEATURED PROJECTS

### 1. Cartify - Premium E-Commerce Platform

[\[Live Demo\]](#) [\[GitHub\]](#) **2026**

Built a full-stack e-commerce platform with product category management, interactive shopping cart, dark mode toggle, and instant dispatch tracking.

### 2. UrbanThread - Luxe Sneakers & Streetwear Drops

[\[Live Demo\]](#) [\[GitHub\]](#) **2026**

Developed a high-end streetwear e-commerce platform featuring sneaker drops, flash deal banners, promo code engine, wishlist, and admin analytics dashboard.

### 3. PixelForge - Developer Portfolio & Showcase

[\[Live Demo\]](#) [\[GitHub\]](#) **2026**

Created an interactive developer portfolio featuring an HTML5 canvas particle background, theme switching context, video demo popups, custom cursor, and printable resume viewer.

### 4. Aetheria - Immersive WebGL 3D Matrix Experience

[\[Live Demo\]](#) [\[GitHub\]](#) **2026**

Architected a 3D WebGL digital experience with 60 FPS matrix torus particles, audio sound FX, zero-trust API security, and ultra-fast sub-second loading speeds.

## EDUCATION

### B.Tech in Computer Science & Engineering

Focused on Web Application Development, Database Management Systems, Software Architecture, and Visual Digital Media.
